

AATi Rail

Project Case Study July 2018

Elizabeth Line

Client: TFL/Crossrail

Contractor: Robert Stevens & Sons Ltd

Product: Bench Arms

Material: Cast Aluminium

AATi have successfully supplied thousands of metres of our cast metal anti-slip stair nosings for the new Elizabeth Line.

AATi (*part of the FSE Group*) suppliers of a wide range of cast metal products were contacted by Robert Stevens & Sons Ltd in early 2018 to supply a Cast Aluminium Bench Arm as part of the new fabricated benches being manufactured by them for various stations on the new Elizabeth Line. The bench arms were powder coated black and the TFL Roundel badge added.
