

# AATi Commercial

---

## PROJECT CASE STUDY

July 2013

### Royal Academy of Arts

**Customer: Robert Stevens & Sons**

**Architect: Long & Kentish Architects**

49 individual names per step they said..... 49 individual names per step they got! Using the standard Building Regulation compliant stair nosing - SN9/55, AATi was able to modify an existing pattern to place the 49 different names.

Where possible AATi look into the option of modifying existing patterns to incorporate their clients bespoke requirements, thus saving cost and reducing lead times.

For any bespoke requirements please feel free to contact us and see what we can create for your project – [info@aati.co.uk](mailto:info@aati.co.uk)
